

**Learning is Joy**

## **MESSAGE FROM THE PRINCIPAL**

Hello Dear Parents,

Every child is immensely gifted. They just unwrap their packages at different times. Learn to see the good in your child. Appreciate them. Let them blossom from a small bud to a colourful flower at their own time and space. Do not compare them to other children. As it is rightly said

"There is nothing in a caterpillar that tells you it's going to be a butterfly". All we need to do is Wait patiently and watch them transform, watch them spread out their wings and fly....

The month of September brought with it an array of events at Little Brooks. The month started with the Parents Teachers Meet wherein you all, got a chance to know about the academic progress of your child. It was then followed by Yellow day celebrations and the month ended with our amazing Sensory Booth day. Let's have a sneak peek, at the month gone by!

# PLAYGROUP

The Concept for Playgroup for the month of September was Zoo animals. They were introduced to topics like Animals and their young ones and the role of a Zoo keeper. They enjoyed watching a Puppet show on Lion and the mouse. They loved listening to stories on Goldilocks and 3 bears and the Fox and the grapes. The colour of the month was Yellow and kids enjoyed making hands-on activities on Yellow Colour. They had fun grooving to the beats of the Tambourine Tango. They also learnt about Table manners and opposites on Big and Small.

## JRKG

The Concept for Jr.Kg was about the Water Kingdom. The children learnt about Sources, Forms and Uses of Water. They also learnt about the Sea animals and the important measures to Save Water. The moral value of the month was Helping Others. The state of the month was Gujarat and the Achiever of the month was Lata Mangeshkar.

## NURSERY

The Concept for Nursery for the month of September was All About the Sea animals. They learnt topics like different sources of Water and the Water cycle. They enjoyed learning about the characteristics of Sea animals, shells, pearls and corals. They were introduced to Curved lines this month. They met letters V, X and K from the letter land. They learnt value counting of numbers 8, 9 and 10. The shape of the month was Square and the colour was Yellow. They were also introduced to opposite words in and out, day and night. They had fun listening to stories on Snow White and the seven Dwarfs.

## SRKG

The Concept for Sr.Kg was Water Kingdom. The children learnt All about the Sea and the beach. They also learnt about the different forms of water and their utility. They enjoyed learning about the Life-cycle of fishes and reptiles. They had fun doing an experiment of Floating and Sinking. They enjoyed listening to stories on Akbar and Birbal and also learnt opposites on similar (same) and different things.

## DAY CARE

The Topic for the Day care was Environment and Us. Children learnt about the Environment and its components, Weather and Seasons and formation of Day and night. They also learnt on how to keep the environment clean. They enjoyed hands-on activities related to the concept.

## LEARNING TIP:

“Children are more likely to live up to what you believe of them” Children at a young age are at a stage in life where they are the most influenced by the people around them. Be it parents, Grandparents, helpers, etc. They will pick up good and bad influences from them, some children rather quickly. We as parents need to be careful when we are around our children.

- 1) **Be Nurturing:** The most important thing in your child's life is Motivation. If you believe in your child and motivate them at every step of the way, they learn to believe in themselves. Avoid Sarcasm and Criticism. Be mindful of how you communicate your point to them even in the worst case scenario.
- 2) **Mind your Language:** Be very careful about what you speak and how you speak to your children and also to others. Using the right words, avoiding cuss words and using the right tone of your voice are some of the things you must take care.
- 3) **Behaviour:** It is rightly said that the best parents lead by example. Therefore be at your best behaviour in front of your children. Your behaviour should be the same that you expect from your children.
- 4) **Ethics and Principles:** If you lie in front of your children indirectly you are telling them “It is OK to lie” Simply saying how your child should be is not enough. Walk the talk. Always tell the truth, be polite, say thank you and sorry whenever it should be said, be kind to people even your house-help, a waiter, your driver etc. Teach your children the values of life by living it yourself.
- 5) **Be Grounded:** Your children need to understand what is more important in life. Materialistic things or things that really matter in life like happiness, relationships, friends and family. Make them realise what matters most in life.

If you want to raise a good person and a good human being, be the example your children will follow. After all, Our parents are our first Super heroes and Role models.

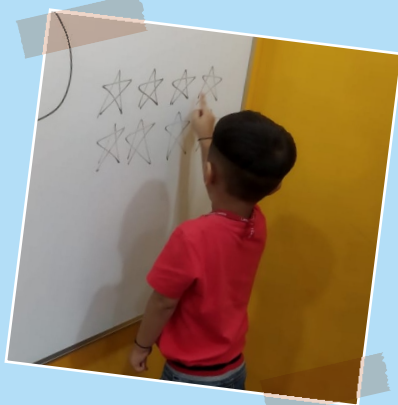

## MEET OUR STAFF

Every month we introduce you to one of the team members of Little Brooks. This month we would like to introduce you to Ms. Sharmeen Shaikh. She is a Junior kg teacher. She has an experience of 9 years in the education industry. She is fun loving and very passionate about teaching young children. She always links her lessons with current affairs and shares many practical instances. Her hobbies are travelling and cooking.

# MONTH IN THE PICTURES
